The City of Prague is pleased to announce the launch of the **Connect-Connect-CTY** service, our new city-to-resident notification system. With this service, city leaders can send personalized voice messages to residents and businesses within minutes with specific information about time-sensitive or common-interest issues such as emergencies and local community matters. The **Connect-CTY** service will be used to supplement our current communication plans and augment public safety/first responder services.

Please accept our invitation to participate in the **Connect-CTY®** notification service. We know your personal information is important, and rest assured that we will not share it with anyone. If you have **NOT** already received a test phone call from us, or you would like to provide additional contact information, click the **Connect-CTY** image to sign up.
